

Coaching the Emergency Vehicle Operator 3: FIRE

NSC Driver Safety Training

Course description

Coaching the Emergency Vehicle Operator (CEVO) 3: FIRE promotes critical thinking during high-pressure driving situations and offers defensive driving strategies to avoid collisions. The course trains fire apparatus operators, volunteer and municipal fire personnel how to navigate through traffic safely in both emergency and non-emergency situations and features videos with real-life driver simulations followed by group discussions.

CEUs may be available for successful completion of this course. Please contact your State Fire Marshall for more information.

What participants will learn

Throughout the 6-hour course, participants will learn defensive driving techniques to maneuver safely through traffic under severe time constraints and stress. Topics include navigating through intersections, cushion of safety, passing and changing lanes, handling blind spots, backing safely, properly positioning the fire apparatus, operating on different road surfaces, weather conditions and more.

Coaching the Emergency Vehicle Operator 3: FIRE Course materials

Instructor Kit – Fully-scripted Instructor manual with group learning activities, discussion diagrams and situation analyses to reinforce key coaching points, observation checklist and a DVD with apparatus inspections and real-life driver scenarios.

Trainee Kit – 16 page, full color **Driver Response Book** with self-appraisal, discussion questions and traffic analyses diagrams. **Course certificate and recognition patch**, upon achieving 80% or better on the final Test scored by Coaching Systems LLC.

Maneuvering Skills Module – This module explains how to set up a test site for hands-on driver evaluation session. Use as a one- or two-hour supplement to the classroom course or as a stand-alone module. Includes DVD, test exercises and Administrator Guide.

National Safety Council course materials provide for the highest-quality instruction and learner retention.

CEVO 3: Fire Classroom Course Sessions & Descriptions

Self-Appraisal	Pre-Training Assessment & Vehicle Inspection
Cushion of Safety	Blind spots, following distance and speeds, and reaction time
