Motorcycle Safety Online Course

The National Safety Council and the Motorcycle Safety Foundation have partnered to provide a Motorcycle Safety Online Course, based on the Motorcycle Safety Foundation's curriculum.

This **2-hour course** is designed for experienced motorcycle riders. It includes a riding risk assessment and the appropriate defensive driving skills and street riding strategies to avoid deadly crashes. The course focuses on the most common causes of motorcycle-related incidents and provides cyclists with strategies to avoid collisions and traffic violations.
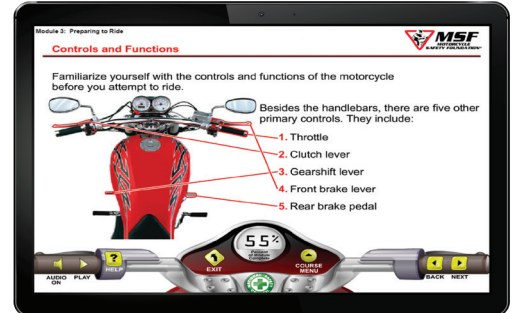

Course objectives

This course will help motorcyclists recognize their own personal driving tendencies, attitudes and habits and emphasizes the need for continuous improvement. It will motivate them to change their driving behaviors. Participants will learn how to recognize both potential and immediate hazards and how to avoid collisions in various driving, road and weather conditions.

Course highlights

Motorcycle Safety Online offers state-of-the-art technology with an emphasis on scenario-based training, hazard risk assessments, knowledge checks and session reviews. This enhanced level of interactivity works effectively at multiple phases of driver training — from new hire to post-incident and refresher training. Other course highlights include:

► Full-course narration with closed captioning for the hearing impaired

► High definition videos, 3-D animation, graphic illustrations and interactive gaming exercises

► Easy to follow navigation and a convenient bookmark feature

► Printable Certificates of Completion

To learn more about the course content, see reverse side.

CONTROL COSTS AND LIABILITY RISKS ASSOCIATED WITH UNSAFE DRIVING BEHAVIORS

Specialized course focuses on the common causes of motorcycle-related incidents, providing defensive driving strategies to avoid collisions and traffic violations

Eliminating Preventable Deaths®

Motorcycle Safety Online Course

For a detailed course overview of NSC Motorcycle Safety Online, go to **nsc.org/Motorcycle-Online-Overview**

The course covers key topics and issues including:

Motorcycle Rider Awareness —The benefits of riding a motorcycle, the causes of motorcycle crashes, basic rules while operating a motorcycle and commitment to safety

Understanding Riding Risks—The risks involved in riding a motorcycle and the importance of being aware of your environment, risk acceptance and the factors involved in taking risks, and the SEE strategy as related to risk management

Preparing to Ride—The types, sizes and fits of motorcycles, protective gear, the elements of the pre-ride inspection, the importance of doing regular scheduled maintenance and the basic riding skills needed to be a safe and responsible rider

Street-riding Strategies—How to maintain visibility on the road and the importance of gathering good visual information when riding, the position of your motorcycle within the flow of traffic and common riding strategies

Specialized Skills—The key concepts associated with the skills needed to improve safe riding practices, how to prepare for special situations while riding and the types of impairments that can effect being a safe and responsible rider

Establish your very own Online Driver Training Portal

Purchase 100 or more registrations and NSC will customize your training site with a company logo, employee welcome message, and safety policy. Site creation, web hosting, and customer and technical support are included.

With your personalized training portal, an administrator at your organization can manage and track registrations, participant progress and test scores, and much more. You have access to:

- ► Tailored reporting capabilities
- ► Enhanced tracking components
- ► Advanced search functions
- ► Customized registration options
- ► Detailed accounting and business function features
- ► Immediate printing of Certificates of Completion

Online licenses can only be used for up to 12 months from purchase date.
 Each user registration is counted as one license.
